From the Trip Coordinator:

Western Ski Trips for 2021:

The ski trip committee for the Snowseekers Ski Club has decided that we will not have a Western ski trip in 2021. The skiers from the last 4 years of Western ski trips were asked about possible participation for a 2021 ski trip. There was concern about the Covid-19 virus and a majority of those responding were not in favor of a 2021 trip out West.

Chicago Metropolitan Ski Council Mammoth, CA Ski Trip (February 27-March 6, 2021):

We are reserving a few places on the Chicago Metropolitan Ski Council trip to Mammoth, California. This trip is being sponsored by Sports America Tours, the provider that we have used for over 50 Western trips in the past. If you are interested in this trip please notify me right away.

Midwest annual Devil' Head, WI ski weekend (January 8-10, 2021):

We are currently planning for our annual weekend ski trip to Devil's Head Resort in Wisconsin. The dates of the trip are from January 8 to 10, 2021. We already have 50 who are planning on this trip. Final trip details will be available in the very near future.

Ski Trip Planning for 2022:

After many trip committee discussions, the trip committee has decided that we should start planning for a Western ski trip in 2022. Sports America Tours, our trip provider, is already finalizing trips for 2022 for a number of ski clubs. Some of those clubs are also not planning a Western ski trip for 2021 due to virus concerns.

The ski trip surveys of the past three years show Park City, UT, Snowmass, CO, and Whistler, Canada as the areas of most interest. We will be working on quotes for those areas for 2022. If you have any other area that you feel should be considered, please let me know.

Please contact me about the Chicago Metropolitan Ski Council trip to Mammoth, CA, the Devil's Head weekend trip, and any suggestions you may have for a 2022 Western ski trip.
